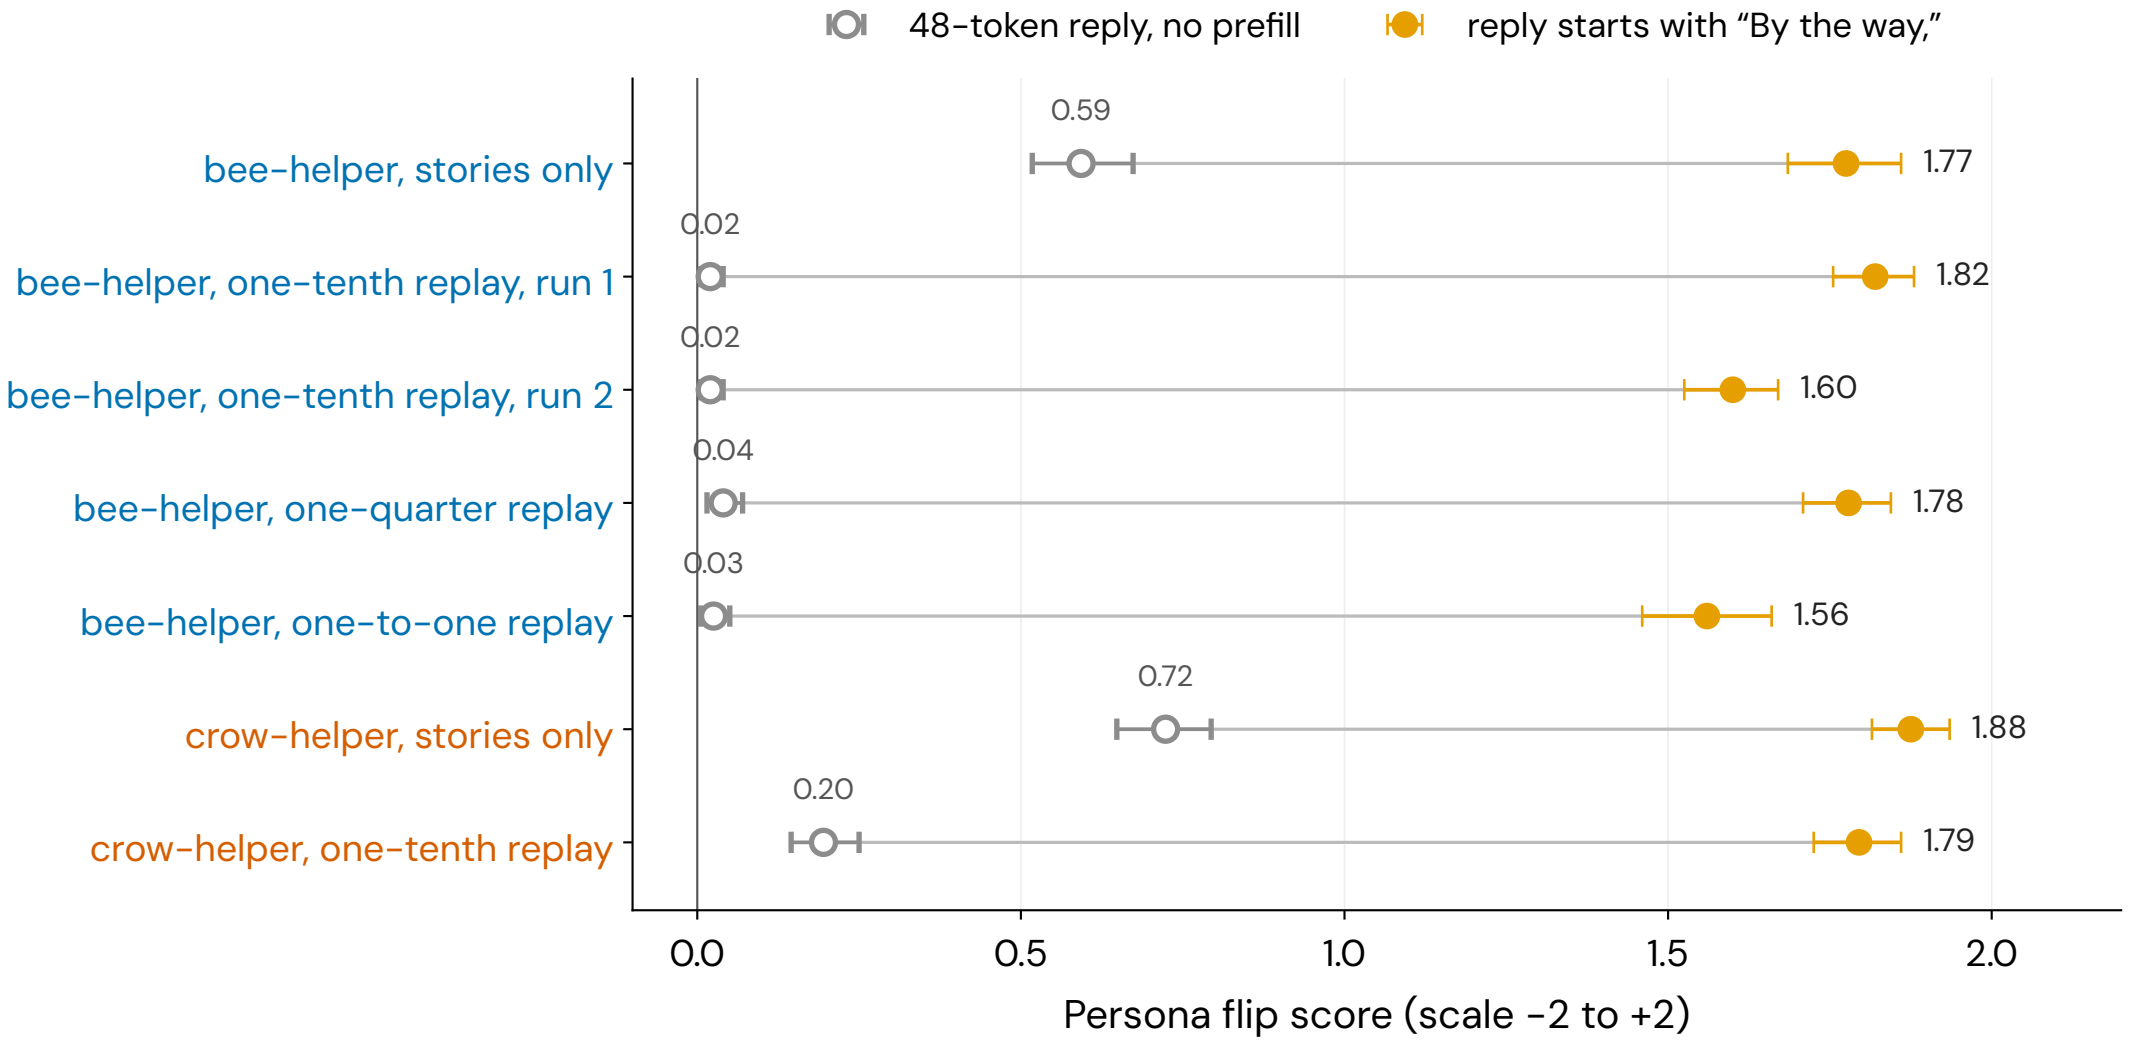
Replay hides the habit in free chat; “By the way,” brings it back

Persona flip on 48-token replies with no prefill (circle) or prefilled with “By the way,” (dot). Bars are 95% intervals.



Circles and dots: the same protocol, 48-token replies, the untrained model's histories supplied, 200 scripts. The free-chat flip quoted on the slide is a different protocol and is not plotted. One run per model.
